We are using T1022 Processor. It is hard coded with 9-E.

Getting access timeout error while programming UBOOT with the help of Lauterbach.
At FLASHFILE.Target command it shows getting FLASHFILE info then access timeout error occurs.

Hello, Can you please share the flash script you're working with. Also, please generate a system information report about your TRACE32 configuration by selecting the TRACE32 menu 'Help' > 'Support' > 'System Information...', click 'Save to File' and send the resulting text file as an attachment to your e-mail. Best Regards, Ayoub
