fatal error in debug hardware startup (download of debug driver version 5) **Awaiting Agent**

- AA Ahmed Abdelgaber
- **Forum name:** #Other Use Cases

Hello support team,
we have received a new debuggers from Lauterbach and I am getting this error:
fatal error in debug hardware startup (download of debug driver version 5), contact technical support
(support@lauterbach.com)

Please help me with the needed actions to make it work.
BTW, older debuggers works on the same setup.

thanks,
Ahmed

Hello Ahmed,

Thanks for reaching out.

Could you please open a new support ticket where you include:

- The serial number of the debugger that works
- The serial number of the debugger that does not work
- A system information report by selecting the TRACE32 menu 'Help' > 'Support' > 'System Information...', click 'Save to File' and send the resulting text file as an attachment to the support ticket.

Kind regards,

Ahmed
