flashing <mark>Awaiting Agent</mark>

- Y Yellow
- **Forum name:** #Debugging

hello team,
i'm using ti mspm0g3519 micro, and trying to flash the software, i'm getting below error, if i see the dump i can see some data not erased.

Hello, please submit a ticket at support.lauterbach.com/new-ticket using your corporate email address, and include a detailed error description (the error cannot be seen in the screenshot) as well as the serial number of you debug probe.

Regards,

Khaled
