Test for Bug in Text Formatting in Community **Awaiting Agent**

- MZ Moez Zouari
- **Forum name:** #Other Use Cases

Hi,

I would like to create this example to highlight and remind about a bug related to text display formatting in the Community section.

This is the first message posted by the user when creating the community topic.

Regards,
Moez (User)

Hello,

- This is a response submitted from the agent interface of Deskpro under Help Center/Community.
- This paragraph is written with proper spacing, line breaks, and in a readable, structured format.
- However, once I submit this comment, it will be displayed with raw HTML tags and in an unstructured format.

Best regards,

Moez (Agent)
