Discontinued Motif support for TRACE32

2026-08-13 - Comments (0) - Announcements

Starting from release 2026/02 Motif will be no longer supported on Linux hosts.

TRACE32 for Linux hosts requires Qt libraries to be installed.

- Minimum version:
  Qt 5.15.3

TRACE32 with Qt screendriver will start with **M**ulti **D**ocument **I**nterface (MDI) by default. To start with the **M**ulti **W**indows **I**nterface (MWI) like Motif, add the following **SCREEN=** option to the configuration file (e.g. config.t32):

```
SCREEN=
MWI
```
