Does Trace.STATistic.TASK include interrupt times? How to get interrupt times in the statistics?

2023-10-24 - [Comments (0)](#) - [Tracing](#)

Trace.STATistic.TASK does include the interrupt times. With **Trace.STATistic.TASKORINTERRUPT**, you can separate task and interrupt times. With **Trace.STATistic.TASKVSINTERRUPT**, interrupts are evaluated depending on the calling task.

Refer for more information to [General Commands Reference Guide T](#).
