[MPC5xxx] Impacts of the Nexus probe during energy measurement

2022-01-11 - Comments (0) - MPC5xxx / SPC5xx

Some recommendation for Energy measurements using the Nexus probe:

In case of Nexus AutoFocus probe LA-7630, it is recommended to turn the active termination off.

There is not much difference between disable Nexus trace probe hardware (**Analyzer.disable**) and turn off the Nexus cell (**NEXUS.OFF**).
