Trace support for PolarFire® SoC (RISC-V + FPGA)

2025-11-14 - [Comments \(2\)](#) - [RISC-V](#)

Please refer to https://gitlab.com/lauterbach/polarfire_trace.

The repository contains resources to implement off-chip trace of the hard RISC-V cores of a PolarFire® SoC with Lauterbach tools.

Hello Nigel, the link should be fixed now.

Regards,

Khaled
