Which 3rd party software components are used by TRACE32 PowerView?

2025-12-26 - [Comments \(0\)](#) - [TRACE32 PowerView](#)

The 3rd-party software components used by TRACE32, including version and licensing information, can be displayed using the TRACE32 command:

```
VERSION.ThirdPartyLicenses
```

Additional details can also be found in the TRACE32 installation directory under the **licenses** folder.
